## Session Management- Advanced

Setup - Advanced Functions (Section A)

BWS Functions | Make Template | Deal Files | Board Mapping | Miscellaneous

**Re-Launch Bridgемate Control Program**

Use this button to launch the Bridgемate Control Software or other scoring device program if you don't want it to reset and reload the tables. You would do this if you accidentally closed the scoring device program and needed to re-launch it and connect to an existing session.

**Curtail Section A Movement**

This process will remove rounds from a movement. You can do it after the session has finished or near the end when the extent of curtailing is known.

Curtail Section A after:

**Reset ALL Bridgемates in Section A (Bridgемates Only)**

This process resets all Bridgемates in this section. You should use it if you've sent out a new movement and want the Bridgемates to re-initialise. It is the same as performing Reset on the Bridgемates using the TD menu.

**Resend Player Names - Teams/Pairs Event (Bridgемates Only)**

Resend Player Names to the Bridgемates - use this option when running a Pairs or Teams event (not session) and have made a late change to player or team names. For normal sessions, use the Resend button on the Player Names tab.

**Update Bridgемate Preferences**

This process sends the current Bridgемate Preferences to all tables in this section. You should have made the necessary changes under Setup | Bridgемate Options.

Setup - Advanced Functions (Section A)

Functions | Make Template | Deal Files | Board Mapping | Miscellaneous | Support

**Re-Launch Bridgемate Control Program**

Use this button to launch the Bridgемate Control Software or other scoring device program if you don't want it to reset and reload the tables. You would do this if you accidentally closed the scoring device program and needed to re-launch it and connect to an existing session.

**Curtail Section A Movement**

This process will remove rounds from a movement. You can do it after the session has finished or near the end when the extent of curtailing is known.

Curtail Section A after:

**Reset ALL Bridgемates in Section A (Bridgемates Only)**

This process resets all Bridgемates in this section. You should use it if you've sent out a new movement and want the Bridgемates to re-initialise. It is the same as performing Reset on the Bridgемates using the TD menu.

**Resend Player Names - Teams/Pairs Event (Bridgемates Only)**

Resend Player Names to the Bridgемates - use this option when running a Pairs or Teams event (not session) and have made a late change to player or team names. For normal sessions, use the Resend button on the Player Names tab.

**Update Bridgемate Preferences**

This process sends the current Bridgемate Preferences to all tables in this section. You should have made the necessary changes under Setup | Bridgемate Options.

Setup - Advanced Functions

BWS Functions | Make Template | Deal Files | Board Mapping | Miscellaneous | Support

**Create Template From Existing Movement**

Arrowswitch Round 1  
 Arrowswitch Round 2  
 Arrowswitch Round 3  
 Arrowswitch Round 4  
 Arrowswitch Round 5  
 Arrowswitch Round 6  
 Arrowswitch Round 7  
 Arrowswitch Round 8  
 Arrowswitch Round 9

This process will create a template typically for a one-winner movement based on the existing movement, and an EW pair number increment and arrow-switching selected at left.

To make a Mitchell Template, set the increment as 0, and don't select any arrowswitch rounds.

Increment EW Pair Numbers by:

Note - don't run this process with a half-table movement. Establish the half table when you use the template, not when you create it.

Template file name:

**Convert BWS File to One-Winner**

This process will convert the BWS file to a one-winner arrowswitch file by incrementing all EW pair numbers and swapping them for the arrowswitched round/s. You should then create the appropriate one-winner movement and change its BWS file to this one.

Setup - Advanced Functions (Section A)

BWS Functions | Make Template | Deal Files | Board Mapping | Miscellaneous | Support

Boards 1 to 4 - natural  
Boards 5 to 8 - natural  
Boards 9 to 12 - natural  
Boards 13 to 16 - natural  
Boards 17 to 20 - natural  
Boards 21 to 24 - natural  
Boards 25 to 28 - natural  
Boards 29 to 32 - natural  
Boards 33 to 36 - natural

Board sets can be mapped to other boards by highlighting the set and clicking Map, or by double-clicking.

Where the movement is changing e.g. for a lost table, edit the movement first, then update as normal, then edit the mapping.

When finished, if you have launched the Bridgемates, select the first round number for which the change applies, and click Update Movement. Otherwise just close this form.

Bridgемates launched? Yes

Update from: Round 1
